## EDUCATION

**Yarmouk University, Irbid**

*B.S. in Computer Science, Jun 2023*

*GPA: Very Good*

## EXPERIENCE

**Coding School by Orange Jordan**                                        **Oct 2023 – Feb 2024**
Full-Stack Web Developer Trainee

- Successfully delivered and completed four projects using various technologies, both independently and as a collaborative team member.

- Attending lectures that enhanced professional communication skills and soft skills such as effective communication and working within a team.

- Deepened our understanding of Full Stack development concepts by applying them in projects, including responsive web pages, SEO concepts, and the MVC pattern.

**Edraak platform**                                                                                    **May 2022 – Sep 2022**
Back End Developer Trainee

- We learned various different techniques that ultimately allowed us to complete a full project using the Laravel framework and MySQL databases.

- We received intensive lectures on the Agile system, soft skills, and emotional intelligence.
